

Mi Air Purifier 2

User Guide

Keep this user guide in a safe place and read carefully before use

Important Safety Instructions

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Installation and Usage

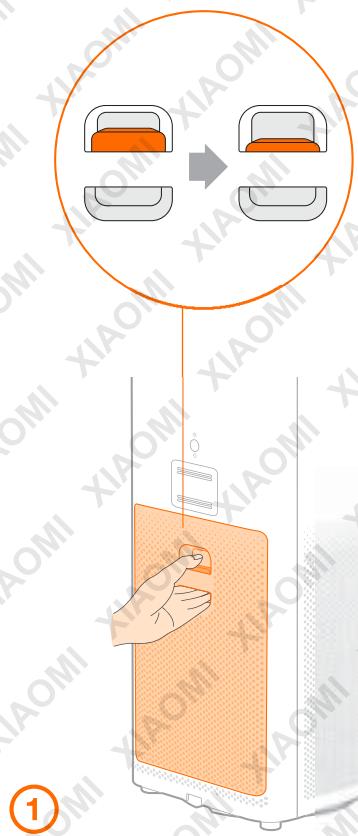

App Download

Search for "Mi Smart Home" in the App Store or scan the QR code.

Note: If you are unable to connect your phone to the air purifier, please see "Maintenance > Resetting the Wi-Fi module".

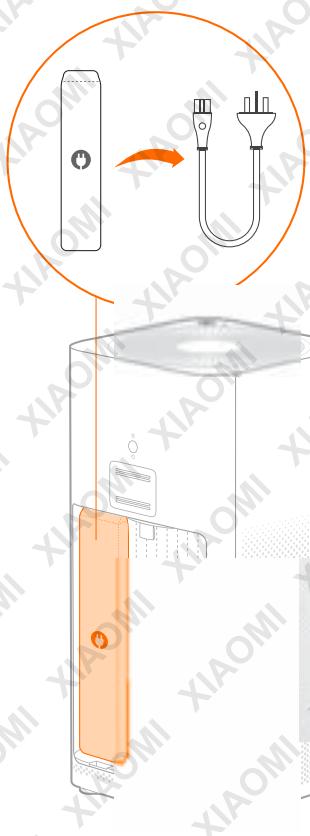

Jump to: [Connecting to Wi-Fi and the Smartphone App](#)

1

1. Open filter door: Press to open filter housing door and make sure the filter is correctly installed.

2

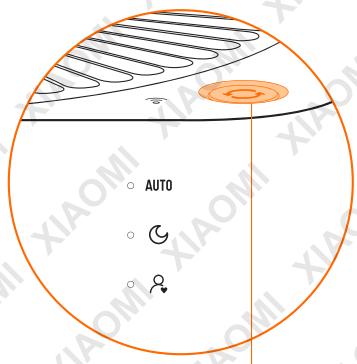

2. Take out power cord: Take out the power cord and close filter housing door

The cable shown here is indicative only. If there is inconsistency between the image and the actual product, the actual product shall govern.

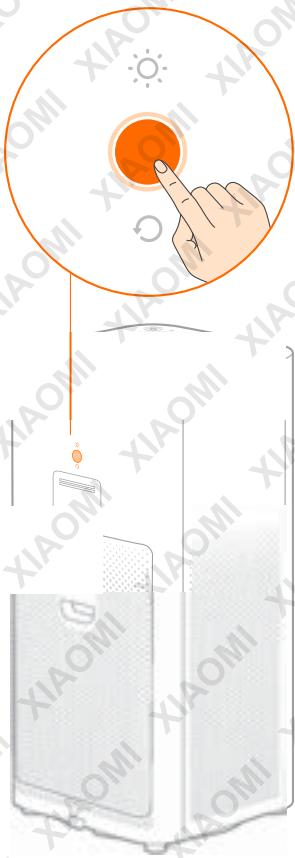

3

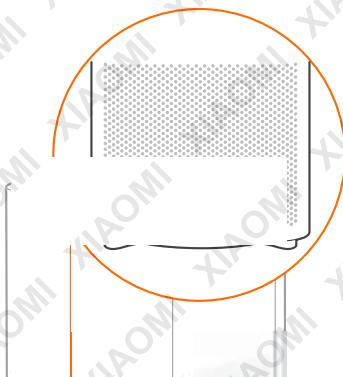

3. Connect to power connector: Connect power cord to power connector at bottom of unit, then connect power cord to an electrical socket.

On/Off and Mode Switch: Press power/mode switch button once to turn on and to switch modes, press and hold for two seconds to turn off.

Light Switch: Press light switch/filter reset button on the back of the unit to adjust light brightness. Brightness status are: strong, soft and off.

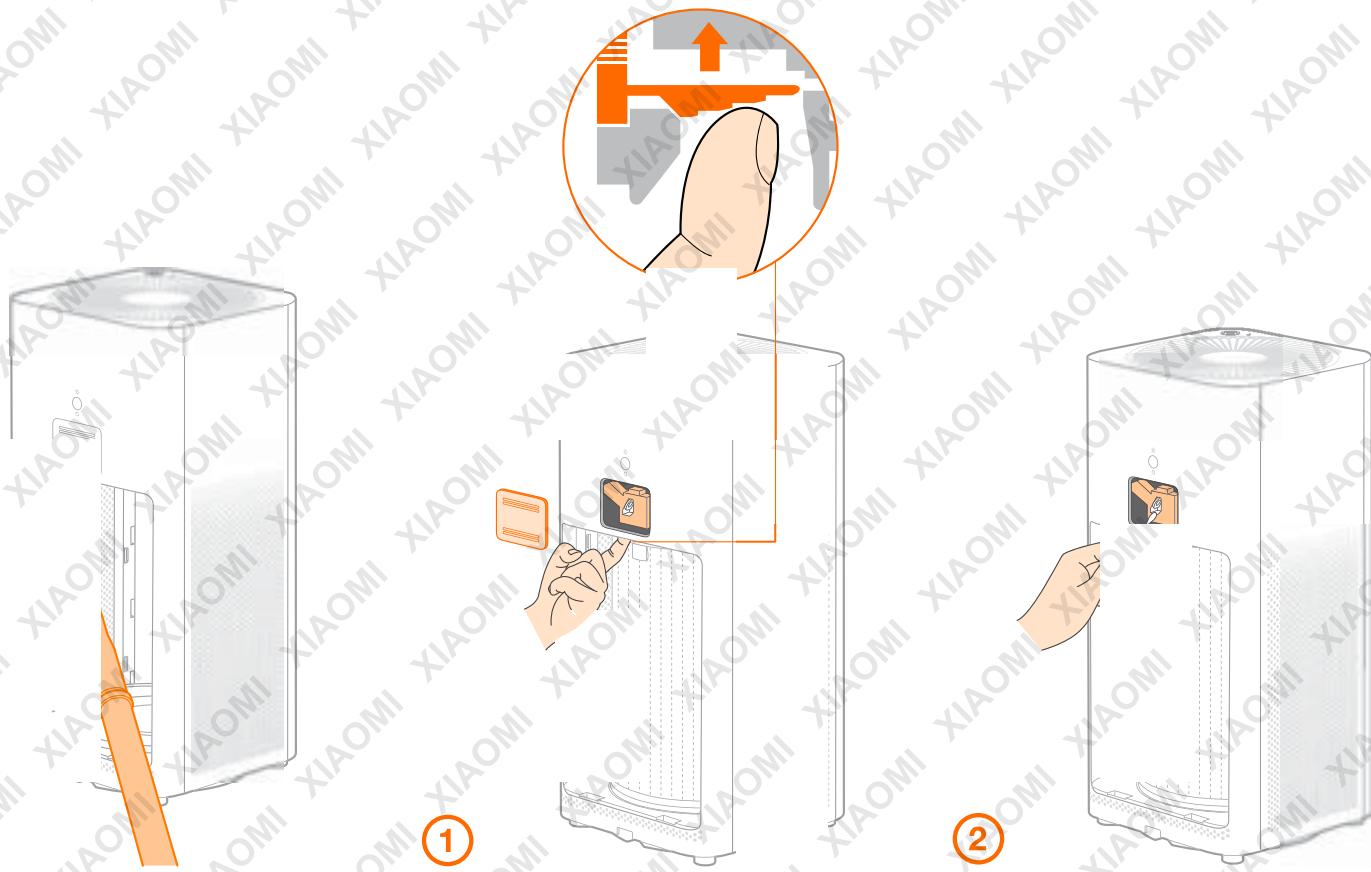

Air Quality Indicator: A green, orange or red light indicates current air quality.

Maintenance

Notes

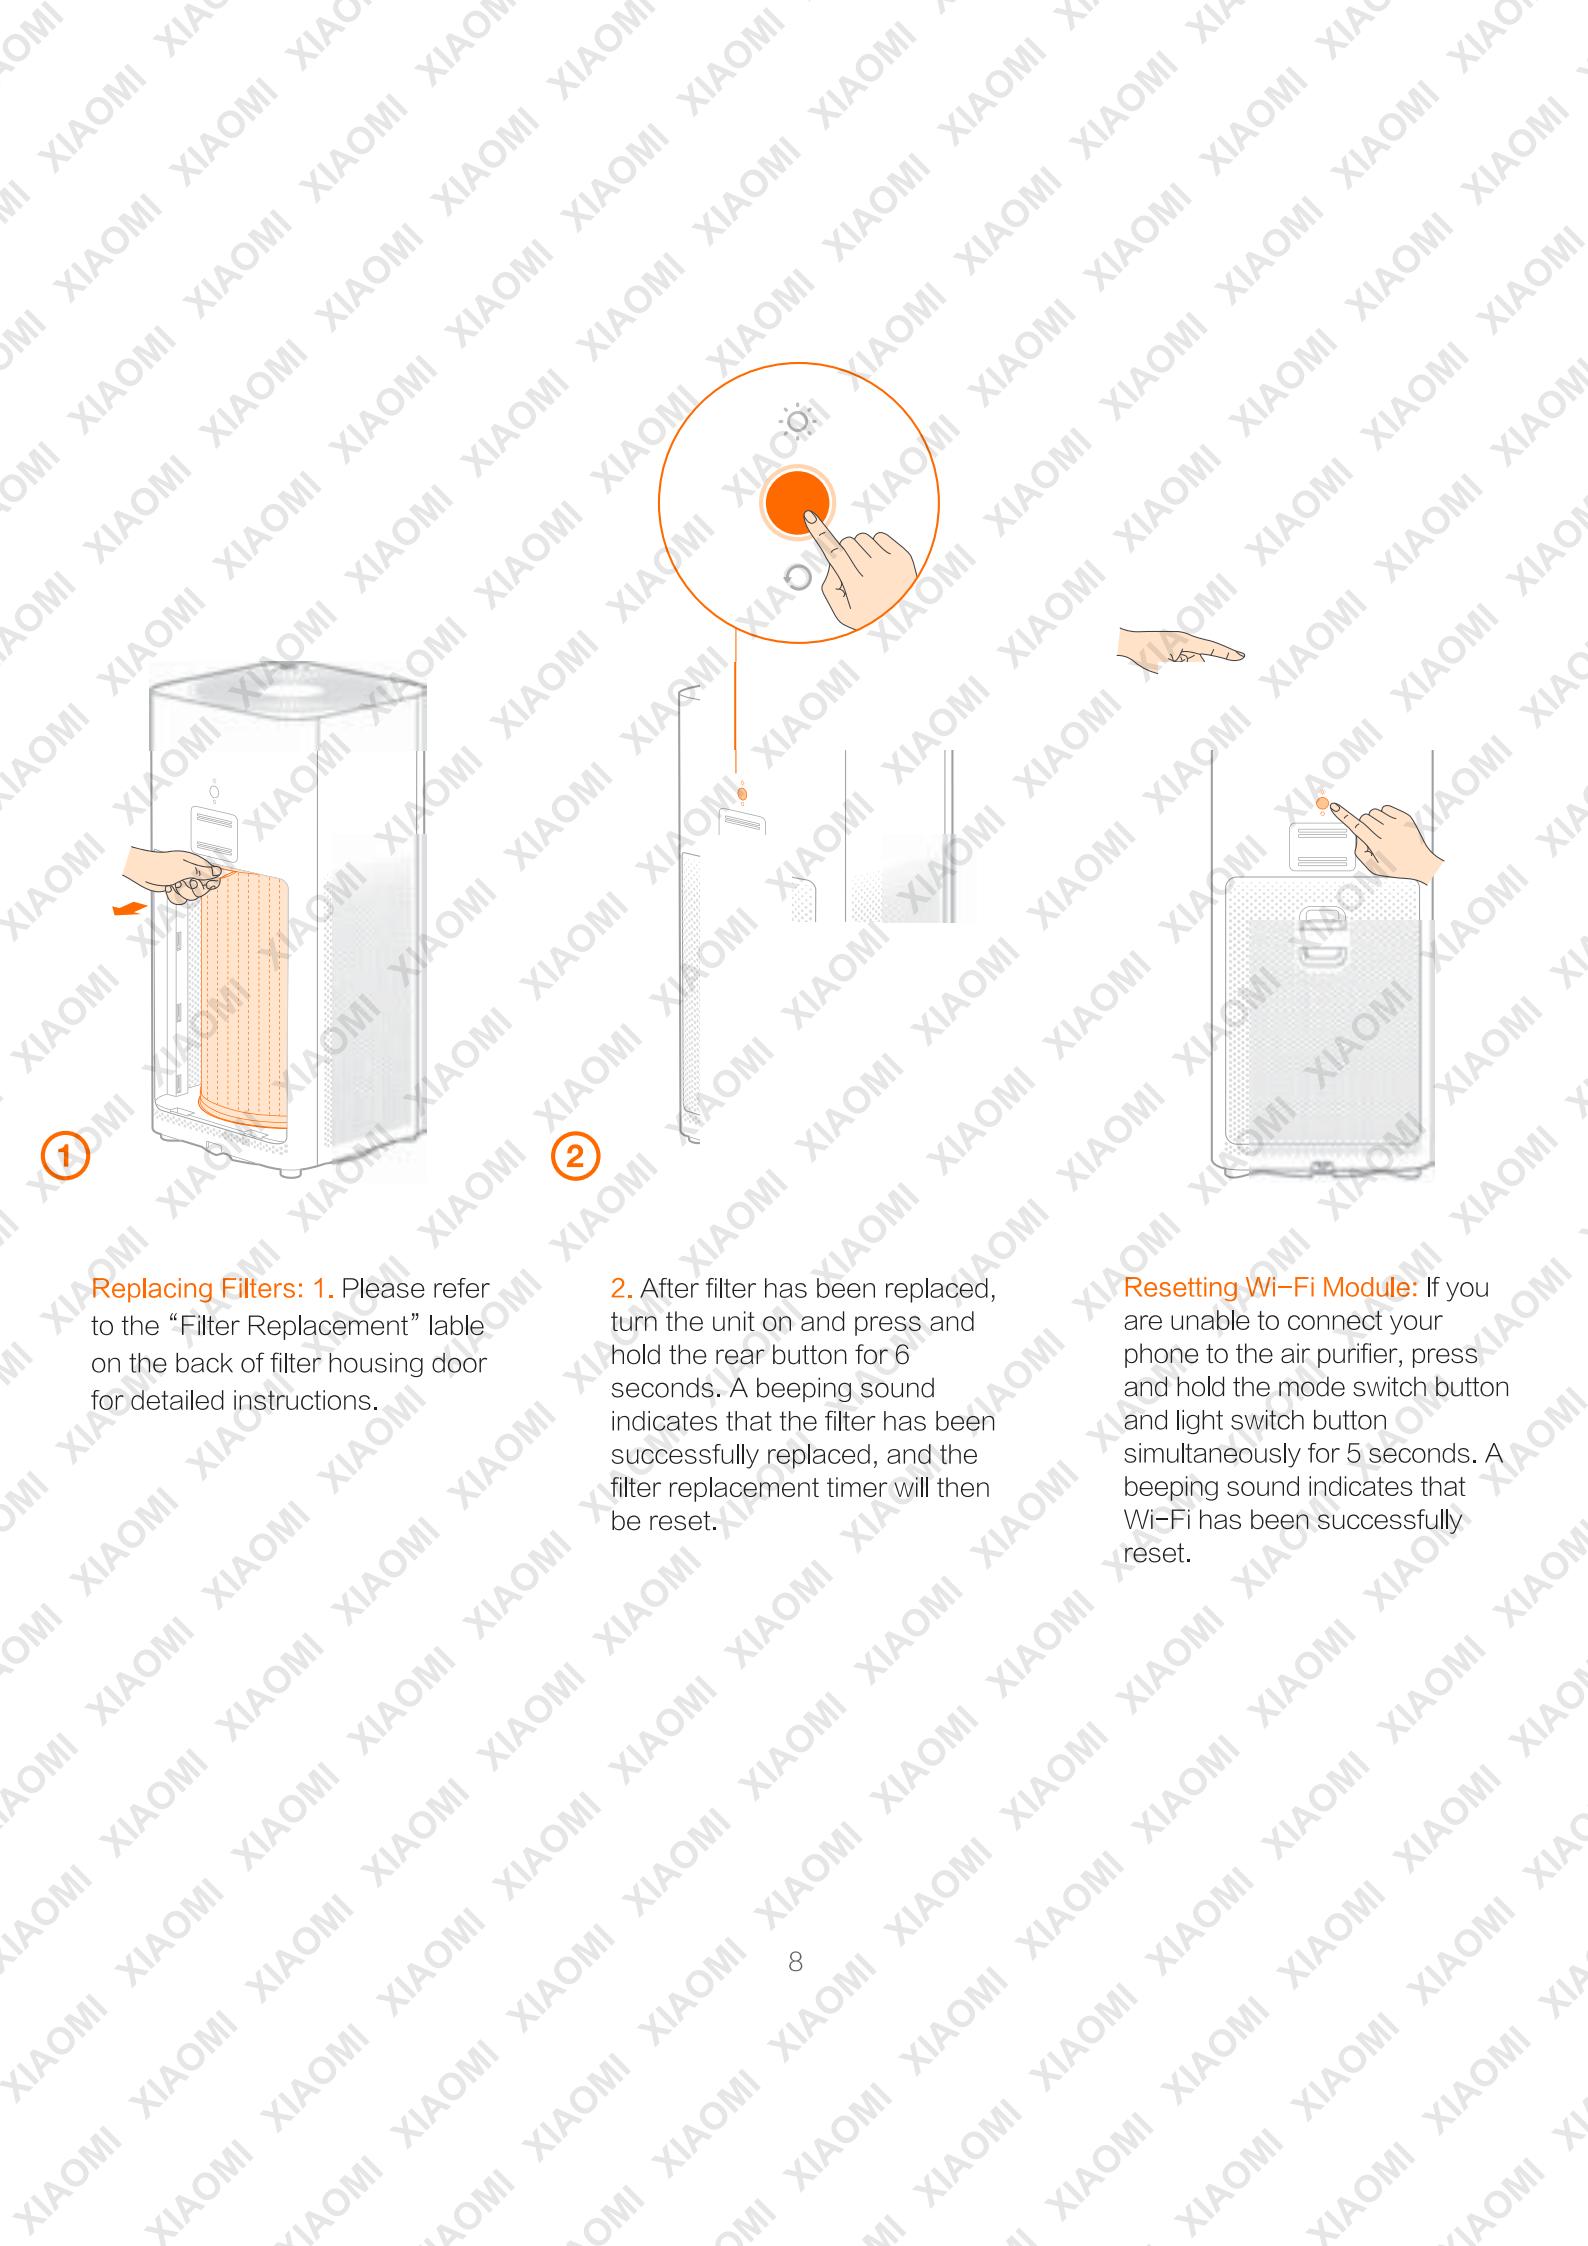

- ⚠ Please make sure to turn off the air purifier and disconnect power before replacing filters cleaning the filter housing or the dust sensor.
- ⚠ Filter should be replaced every 3–6 months. When it is time, filter replacement indicator light will blink red for 30 seconds when unit is turned on.
- ⚠ When the filter reaches saturation absorption of harmful gases, there may be odor. Please place the filter in a sunny and ventilated place to eliminate odor.

Cleaning Filter Housing: To ensure optimum operation, use a vacuum cleaner or soft cloth to remove any dust clinging to air holes or housing walls.

Cleaning Dust Sensor: 1. Dust sensor's back cover is at the top of filter housing. Lift to open the back cover.

2. It is suggested to use a dry cotton swab and gently wipe the dust adhering to the sensor every half year.

Replacing Filters: 1. Please refer to the "Filter Replacement" label on the back of filter housing door for detailed instructions.

2. After filter has been replaced, turn the unit on and press and hold the rear button for 6 seconds. A beeping sound indicates that the filter has been successfully replaced, and the filter replacement timer will then be reset.

Resetting Wi-Fi Module: If you are unable to connect your phone to the air purifier, press and hold the mode switch button and light switch button simultaneously for 5 seconds. A beeping sound indicates that Wi-Fi has been successfully reset.

Problem	Unable to turn power on	Excessive noise during operation	Ineffective purification	Air quality indicator light displays an error
Confirm the following	<ul style="list-style-type: none">• Rear filter replacement door is properly installed;• Power cord is properly connected	<ul style="list-style-type: none">• Check that filter is installed;• Filter packaging has been removed	<ul style="list-style-type: none">• Check that filter is installed;• Filter element packaging has been removed;• Filter is securely fastened in place	<ul style="list-style-type: none">• Check if dust sensor operation is impeded by excessive dust <p>Note: Please refer to "Maintenance – Cleaning Dust Sensor" for detailed instruction</p>

Connecting to Wi-Fi and the Smartphone App

The Air Purifier features some advanced options such as being able to switch on/off remotely and an assessment of air quality, including notification etc, through a smartphone app. Connection between your smartphone and the purifier is through a Wi-Fi service. The purifier must be able to connect to a Wi-Fi service to use the smartphone app.

Note that it is not mandatory to use the smartphone app.

Install and set-up the smartphone app and Air Purifier Wi-Fi connection as follows:

- ① On your smartphone, download the Mi Home app from Google Play or the App Store, alternatively use the following QR code (your phone requires a "QR reader" application to do this), and download the application. Scan either one of these QR codes, depending on your operating system.

iOS

Android

Once the Mi Home app is installed, you should see a logo that looks like this:

- ② Open the app, then create an account, then sign in to the application using your new account. Once done, you will come to the **Mi Home** application main page which will display some information; for example, temperature of the location you are in.

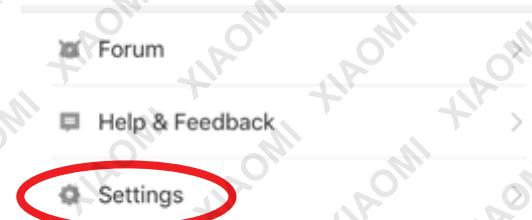

Setting the Server

To connect your purifier to the app, you need to select a "Server", different Servers have different Xiaomi products linked to them. You need to connect to the "Singapore Server", as follows:

- ① From the main screen of the app, tap **Profile**.

- ② Now select **Settings**.

- ③ Now **Locale**.

- ④ From the list of Servers, select **Singapore**.

- ⑤ Return to the Mi Home main page.

Adding the Mi Air Purifier

① From the Mi Home app main page, tap + in the top-right corner to add a device.

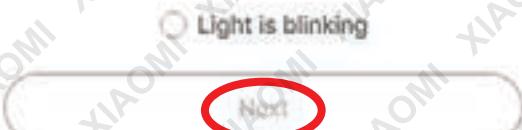

② Scroll through the list of products and select "Mi Air Purifier 2".

③ On the top of the air purifier, near the power button, is the WiFi indicator. This light needs to be blinking to connect to the WiFi service. If the light is not blinking, press and hold the power button and the reset button located on the back of the unit for 5 seconds, the unit will beep to indicate the reset is complete.

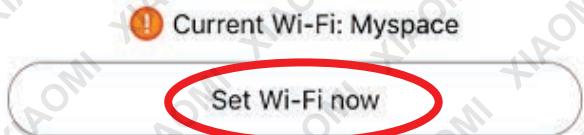

④ In Mi Home app, tap **Light is Blinking**, then tap **Next**.

⑤ Select your Wi-Fi connection and enter your Wi-Fi password, then tap **Next**.

⑥ Tap **Set Wi-Fi Now** to display available connections, then tap the air purifier Wi-Fi name to select it. The smartphone and purifier should now be connected.

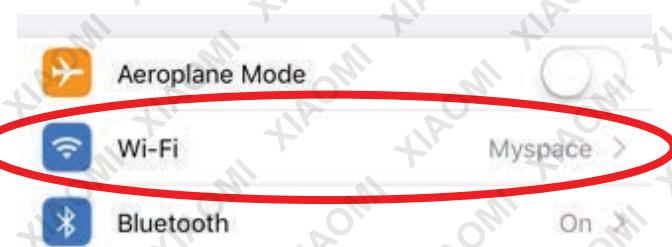

⑧ Select the air purifier from the list.

⑩ Now the app will run through the connection set-up. Once connection is complete, follow the prompts to complete set-up.

⑦ Then select **Wi-Fi**.

⑨ Once the air purifier is set as the connected Wi-Fi, return to the Mi Home app.

Some experts believe that the incorrect or prolonged use of almost any product may cause serious injury or death. To help reduce your risk of serious injury or death, refer to the information below. For more information, see www.datastreamserver.com/safety

- Consult all documentation, packaging and product labelling before use. Note that some products feature documentation available online. It is recommended to print and retain the documentation.
- Before each use, check the product for loose/broken/damaged/missing parts, wear or leaks (if applicable). Never use a product with loose/broken/damaged/missing parts, wear or leaks.
- Products must be inspected and serviced (if applicable) by a qualified technician every 6 months. This is based on average residential use by persons of average size and strength, and on a property of average metropolitan size. Use beyond these recommendations may require more frequent inspections/servicing.
- Ensure that all users of the product have completed a suitable industry recognised training course before being allowed access to the product.
- If this product has been purchased in error when considering the information presented here, contact the retailer directly for details of their returns policy, if required.
- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or description of application. Be sure to attain third-party approval from a qualified specialist for your application before use, regardless of any assurances from the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (for example, automobile, computer, toaster), there is the possibility of technical issues that may require the repair or replacement of parts, or the product itself. If the possibility of such failure and the associated time it may take to rectify could in any way inconvenience the user, business or employee, or financially affect the user, business or employee, then the product is not suitable for your requirements. This product is not intended for use where incorrect operation or a failure of any kind, including but not limited to, a condition requiring product return, replacement, parts replacement or service by a technician may cause financial loss, loss of employee time or an inconvenience requiring compensation.
