## Caution

1. The maximum load is 1,100lbs (500kg). DO NOT exceed this rated capacity.
2. Ensure saddles are fastened and secured before lifting.
3. Keep children and unauthorised persons away from the work area.
4. Wear ANSI approved safety goggles when operating the lift.
5. Only use this lift on a large, stable, level, dry and non-slippery motorcycle lift platform. Keep the surface clean, tidy and free from unrelated materials and ensure that there is adequate lighting.
6. Ensure wing brackets and base are bolted down into concrete with dynabolts.
7. Ensure wing brackets and case are down onto a compatible larger bike lift with washers, spring washers, nuts and bolts.
8. Ensure jack is always used with saddles and is positioned perpendicular to bike.
9. Always keep your hands and feet away from working area.
10. DO NOT allow untrained persons to operate the lift
11. DO NOT make any modifications to this lift.
12. DO NOT expose the lift to rain or snow.

## Maintenance

1. When not in use, the lift must be stored in the lowest position in a dry location.
2. Keep the lift clean and wipe off any oil or grease. Lubricate all moving parts.
3. Before each use check all parts. If any part of the lift is damaged or suspect remove the lift from service and take necessary action to repair.

**Some experts believe that the incorrect or prolonged use of almost any product may cause serious injury or death. To help reduce your risk of serious injury or death, refer to the information below. For more information, see [www.datastreamserver.com/safety](http://www.datastreamserver.com/safety)**

- Consult all documentation, packaging and product labelling before use. Note that some products feature documentation available online. It is recommended to print and retain the documentation.
- Before each use, check the product for loose/broken/damaged/missing parts, wear or leaks (if applicable). Never use a product with loose/broken/damaged / missing parts, wear or leaks.
- Products must be inspected and serviced (if applicable) by a qualified technician every 6 months. This is based on average residential use by persons of average size and strength, and on a property of average metropolitan size. Use beyond these recommendations may require more frequent inspections / servicing.
- Ensure that all users of the product have completed a suitable industry recognised training course before being allowed access to the product.
- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or description of application. Be sure to attain third-party approval from a qualified specialist for your application before use, regardless of any assurances from the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (for example, automobile, computer, toaster), there is the possibility of technical issues that may require the repair or replacement of parts, or the product itself. If the possibility of such failure and the associated time it may take to rectify could in any way inconvenience the user, business or employee, or financially affect the user, business or employee, then the product is not suitable for your requirements. This product is not intended for use where incorrect operation or a failure of any kind, including but not limited to, a condition requiring product return, replacement, parts replacement or service by a technician may cause financial loss, loss of employee time or an inconvenience requiring compensation.
- If this product has been purchased in error when considering the information presented here, contact the retailer directly for details of their returns policy, if required.
