INSTALLATION GUIDE.....	2
INSTALLATION GUIDE FOR THE POLES.....	3

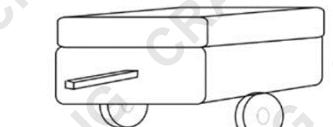

SAFETY REMINDERS AND USAGE

1. Do not install the poles very tight or very loose, otherwise it will cause difficulty to attach the Annex Walls to the tent.
2. When using the tent in rainy days, please see below for CAUTION FOR USING IN RAINY DAYS.
3. Please attach the rope to the top of each vertical pole, NOT the hook of Rubber Band.
4. Please open/close the zippers on windows/doors very carefully after securing the pegs around the tents and adjust the poles to right place to make sure the tent becomes flat.

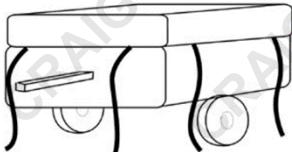

CAUTION FOR USING IN RAINY DAYS

1. To secure the pegs to the ground around the tent, adjust the poles to its correct position and tighten the ropes to make sure the tent roof is flat.
2. To remove two poles 1 shown on right picture A, place the waterproof cap into the top of each vertical pole and tighten the ropes of Annex walls one by one.
3. On point P shown on right picture B, please add a water-guide pad between the Velcro's of awning and annex wall, then tighten its rope as shown on right picture C.
4. Please do the same for the second awning

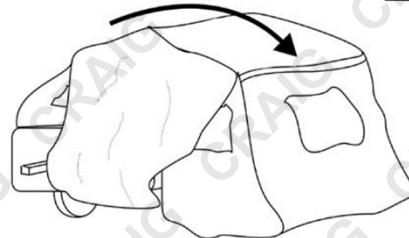

CAMPER TRAILER TENT**INSTALLATION GUIDE**

Some experts believe that the incorrect or prolonged use of almost any product may cause serious injury or death. To help reduce your risk of serious injury or death, refer to the information below. For more information, see www.datastreamserver.com/safety

- Consult all documentation, packaging and product labelling before use. Note that some products feature documentation available online. It is recommended to print and retain the documentation.
- Before each use, check the product for loose/broken/damaged/missing parts, wear or leaks (if applicable). Never use a product with loose/broken/damaged/missing parts, wear or leaks.
- Products must be inspected and serviced (if applicable) by a qualified technician every 6 months. This is based on average residential use by persons of average size and strength, and on a property of average metropolitan size. Use beyond these recommendations may require more frequent inspections/servicing.
- Ensure that all users of the product have completed a suitable industry recognised training course before being allowed access to the product.
- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or description of application. Be sure to attain third-party approval from a qualified specialist for your application before use, regardless of any assurances from the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (for example, automobile, computer, toaster), there is the possibility of technical issues that may require the repair or replacement of parts, or the product itself. If the possibility of such failure and the associated time it may take to rectify could in any way inconvenience the user, business or employee, or financially affect the user, business or employee, then the product is not suitable for your requirements. This product is not intended for use where incorrect operation or a failure of any kind, including but not limited to, a condition requiring product return, replacement, parts replacement or service by a technician may cause financial loss, loss of employee time or an inconvenience requiring compensation.
- If this product has been purchased in error when considering the information presented here, contact the retailer directly for details of their returns policy, if required.
