Sit / Stand Desktop Riser Assembly Guide

READ THIS MANUAL CAREFULLY BEFORE USE AND KEEP FOR FUTURE REFERENCE – FAILURE TO DO SO MAY RESULT IN INJURY, PROPERTY DAMAGE AND MAY VOID WARRANTY. • Products covered by this manual may vary in appearance, assembly, inclusions, specifications, description and packaging.

Features & Specifications

CAUTION: DO NOT EXCEED MAXIMUM WEIGHT CAPACITY. SERIOUS INJURY AND / OR PROPERTY DAMAGE MAY RESULT!

Components

	A	B	C	D	E	F	G
1							
		X2	X1	X6	X1	X1	X2

Tools required (not included)

1

Warning: The hinge mechanism can crush and cut.

2

Use 6 screws (D) to attach the hanging brackets (B) to the underside of the keyboard tray (C).

3

Pull up the levers on each side of the desktop and raise the desk, then release the levers.

Hook the keyboard tray hanging brackets to the screws under the desktop, then tighten the screws using the Allen key (E).

4

5

Keep monitor bases, computers etc fully on the desktop. Allowing any part of the base or stand to hang over the edge may result in property damage and / or personal injury.

Raise / lower the desk slowly. Raising / lowering the desk too quickly may cause objects on the desktop to become unstable, which may result in property damage and / or personal injury.

6

7

To adjust desktop height:

1. Pull up the levers on either end of the desktop to unlock it.
2. Move the desktop to the required position.
3. Release the levers to lock the desktop.

Leave sufficient slack in the cabling to allow for the full range of vertical movement of the desktop (38cm / 15"). Failure to provide enough free cable warning may result in property damage and / or personal injury.

To avoid potentially pinching cables, it is important to follow the cable routing instructions above. Failure to route cables properly may result in property damage and / or personal injury.

! WARNING PINCH POINT

Do NOT place hands on or near support bars. Pinch points are created when raising and lowering the desktop. Failure to follow these instructions may result in serious personal injury.

Some experts believe that the incorrect or prolonged use of almost any product may cause serious injury or death. To help reduce your risk of serious injury or death, refer to the information below. For more information, see www.datastreamserver.com/safety

- Consult all documentation, packaging and product labelling before use. Note that some products feature documentation available online. It is recommended to print and retain the documentation.
- Before each use, check the product for loose/broken/damaged/missing parts, wear or leaks (if applicable). Never use a product with loose/broken/damaged/missing parts, wear or leaks.
- Products must be inspected and serviced (if applicable) by a qualified technician every 6 months. This is based on average residential use by persons of average size and strength, and on a property of average metropolitan size. Use beyond these recommendations may require more frequent inspections/servicing.
- Ensure that all users of the product have completed a suitable industry recognised training course before being allowed access to the product.
- If this product has been purchased in error when considering the information presented here, contact the retailer directly for details of their returns policy, if required.
- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or description of application. Be sure to attain third-party approval from a qualified specialist for your application before use, regardless of any assurances from the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (for example, automobile, computer, toaster), there is the possibility of technical issues that may require the repair or replacement of parts, or the product itself. If the possibility of such failure and the associated time it may take to rectify could in any way inconvenience the user, business or employee, or financially affect the user, business or employee, then the product is not suitable for your requirements. This product is not intended for use where incorrect operation or a failure of any kind, including but not limited to, a condition requiring product return, replacement, parts replacement or service by a technician may cause financial loss, loss of employee time or an inconvenience requiring compensation.
