

Instruction For Digital Measuring Wheel(Mini Wheel/Type 1)

Main Features and Range

1. Up to 99,999.9/Feet/Yards/Meters
2. Measuring Accuracy: 99.9%
3. "Smart Wheel" (automatically includes wheel radius for accurate wall-to-wall measurements)
4. Units conversion: Meter/Foot/Yard;
5. Auto power off after 3 minutes of idleness
6. Wheel size: circumference: 0.314m (12-23/64"); diameter: 0.1m (3-15/16")
7. Maximum measuring speed: 13km/h
8. Power: Four AAA 1.5V Duracell batteries
9. Operating Temperature: -10~60 °C (14~140 °F)
10. Display Type: LCD display; 6 digits(0~ 99,999.9).

Instructions for Buttons

1. **ON/OFF**: power switch, press it for turning on (off) power,
2. **START/STOP**: Start /stop measuring conversion. Press it to preset zero and it will show " 0 m" for beginning measurement. When finish measuring ,press this button again to stop measuring. The data will be kept for reading. Press this button again, it will convert from stop to start. But the data measured before would disappear.

3. **UNITS:** unit conversion

4. **HOLD:** While measuring, press **HOLD** to keep the data for checking the measured value. Press **HOLD** again it will quit. And the data measured before will not disappear.
5. **+D:** Press this button, the wheel's diameter will be added to the measured value for the accurate wall-to-wall measurement

Attentions

1. Don't clean this precision device with organic solvent. Keep away from water and corrosive.
2. While using, it will shut down if its button is not pressed in 3 minutes in order to save power. When the screen is not bright or doesn't work, it shows the battery is flat. Replace with 4 AAA 1.5V batteries. Take out the batteries if it's not used for a long time in order to avoid the leakage of battery liquid.
3. Keep this device indoors in -30 °C~+65 °C and relative humidity < 90%.

Some experts believe the incorrect or prolonged use of almost any product could cause serious injury or death. For information that may reduce your risk of serious injury or death consult the points below and additionally, the information available at www.datastreamserver.com/safety

- Consult all documentation, packaging and product labelling before use. Note that some products feature online documentation which should be printed and kept with the product.
- Check product for loose / broken / damaged / missing parts, wear or leaks (if applicable) before each use. Never use a product with loose / broken / damaged / missing parts, wear or leaks (if applicable).
- Products must be inspected and serviced (if applicable) by a qualified specialist every 6 months assuming average residential use by a person of average weight and strength, above average technical aptitude, on a property matching average metropolitan specification. Intended use outside these guidelines could indicate the product is not suitable for intended use or may require more regular inspection or servicing.
- Ensure all possible users of the product have completed an industry recognised training course before being given access to the product.

- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or your description of the application. Be sure to attain third party approval for your application from a qualified specialist before use regardless of prior assurances by the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (take an automobile, aircraft, computer or ball point pen for example) there is always a small chance of a technical issue that needs to be repaired or may require replacement of the product or a part. If the possibility of such failure and the associated time it takes to rectify could in any situation inconvenience the user, business or employee or could financially affect the user, business or employee then the product is not suitable for your requirements. This product is not for use where incorrect operation or a failure of any kind, including but not limited to a condition requiring product return, replacement, service by a technician or replacement of parts could cause a financial loss, loss of employee time or an inconvenience requiring compensation.
- If this item has been purchased in error considering the points above simply contact the retailer directly for details of their returns policies if required.
