Two Layers Adjustable Workbench

Parts List		
Part Number	Description	Qty
A	Upright	2
B	Beam for MDF Panel	2
C	Beam for Steel Panel	2
D	MDF Panel	1
E	Steel Panel	2
F	Plastic Cover	4
G	Safety Bolts and Nuts	8

A- Upright

B- Beam for MDF Panel

C- Beam for Steel Panel

D- MDF Panel

E- Steel Panel

F- Plastic Cover

G-Safety Bolts and Nuts

Safety Instruction

1. These units should be placed on a level ground. Failure to do so can result in poor product performance or create a possible safety hazard.
2. Do not use this unit for anything other than the manufacturer's intended purpose. Do not stand on any part of the unit, or use it as a ladder
3. Evenly distribute the weight on each level. Do not overload.
4. When moving the unit, always push from the sides, never push from the front, back, or top. This can cause a "tipping" hazard, which can result in a serious injury to yourself or others.

Assembly

Step 1

Stand up one upright (A), and insert the connection claw of beam for MDF panel (B) at the top holes. And then insert the other end connection claw of the beam for MDF panel into the top holes of the other upright.

As shown below:

Step 2

Repeat the same procedure to assemble the other beam for MDF panel (B). As shown below.

Step 3

Repeat the same procedure to assemble the beams for steel panel (C). Please choose the assembly height you want, but please make sure both beams are on the same level, and you assemble them horizontally. As shown below:

Step 4

Place the MDF panel (D) and steel panels (E) on to the corresponding beams. Please make sure you place the MDF panel on the beams for MDF panel which have height support brace on them and the steel panels on the steel ones. As shown below:

Step 5

Secure the uprights and beams with safety bolts and nuts (G). Cover the upright top with plastic covers (F). As shown below:

Some experts believe the incorrect or prolonged use of almost any product could cause serious injury or death. For information that may reduce your risk of serious injury or death consult the points below and additionally, the information available at www.datastreamserver.com/safety

- Consult all documentation, packaging and product labelling before use. Note that some products feature online documentation which should be printed and kept with the product.
- Check product for loose / broken / damaged / missing parts, wear or leaks (if applicable) before each use. Never use a product with loose / broken / damaged / missing parts, wear or leaks (if applicable).
- Products must be inspected and serviced (if applicable) by a qualified specialist every 6 months assuming average residential use by a person of average weight and strength, above average technical aptitude, on a property matching average metropolitan specification. Intended use outside these guidelines could indicate the product is not suitable for intended use or may require more regular inspection or servicing.
- Ensure all possible users of the product have completed an industry recognised training course before being given access to the product.

- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or your description of the application. Be sure to attain third party approval for your application from a qualified specialist before use regardless of prior assurances by the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (take an automobile, aircraft, computer or ball point pen for example) there is always a small chance of a technical issue that needs to be repaired or may require replacement of the product or a part. If the possibility of such failure and the associated time it takes to rectify could in any situation inconvenience the user, business or employee or could financially affect the user, business or employee then the product is not suitable for your requirements. This product is not for use where incorrect operation or a failure of any kind, including but not limited to a condition requiring product return, replacement, service by a technician or replacement of parts could cause a financial loss, loss of employee time or an inconvenience requiring compensation.
- If this item has been purchased in error considering the points above simply contact the retailer directly for details of their returns policies if required.
