Indicator Instruction

Press the switch and check the battery storage level according to the colour of the indicator.

Indicator Colour	Red	Yellow	Green
Storage level	Low Battery	Half Battery	Full Battery

Charging the 12V Jump Starter

Use the home adaptor to charge the Portable Car 12V Jump Starter while the indicator is in either yellow or red.

1. Plug the home adaptor into the universal socket.
2. Connect 14V1A Input port of the Portable Car 12V Jump Starter to the other end of the home adaptor.

Instructions for Jump-Starting a Vehicle

Follow the instruction below when your vehicle won't start because of power shortage, damaged battery or low temperature.

1. Press the switch and check the indicator colour, make sure that the light is green or yellow.
2. Connect the red clamp to the vehicle's battery positive (+) terminal and connect the black clamp to the vehicle's battery negative (-) terminal.
3. Start the vehicle.
4. When the vehicle starts, disconnect the red and black clamps from the vehicle battery terminals.

Warnings

1. Make sure that the indicator is green or yellow when jump starting the vehicle. DO NOT jump start the vehicle if the light is red.
2. DO NOT connect the clamps to the wrong terminal. Otherwise, it may damage the jump starter and the vehicle battery.
3. Always check if the jumper clamps are well connected; check if the vehicle battery connector is rusty or dirty; clean the battery connector before jump starting the vehicle. DO NOT jump start again after three attempts. Otherwise, it will damage the jump starter. Check your vehicle if it has other problems.
4. Charge the Portable Car 12V Jump Starter when the indicator is red.
5. DO NOT connect the two clamps. Very dangerous!
6. DO NOT disassemble the jump starter. Very dangerous!

Always exercise great care when using this appliance.

This appliance is not intended for use by children or persons with disabilities without proper supervision.

Do not use this appliance as a toy.

Do not allow the appliance to become wet.

Do not immerse the appliance in water.

Do not operate the appliance in flammable environments, such as those that contain flammable liquids, gases or materials.

Do not modify or disassemble the Portable Car 12V Jump Starter. Only a qualified repair technician can repair this unit.

Do not expose the appliance to extreme heat.

Do not store the appliance in locations where the temperature may exceed 70°C.

Charge only at ambient temperatures between 0°C and 40°C.

Charge only with the charger provided with the appliance.

Under extreme conditions, battery leakage may occur. Carefully wipe the liquid off using a cloth and avoid skin contact when you notice liquid on the batteries. In case of skin or eye contact, rinse immediately with clean water and seek medical attention.

At the end of its useful life, discard the appliance with due care for the environment.

Pb	Hg	Cd	Cr(VI)	PBB	PBDE
O	O	O	O	O	O

O: Indicates all homogeneous materials' hazardous substances contents are below the MCV limit specified in the Standard 2002/95/EC (RoHs).

Warranty Information

1. We offer a limited warranty for this product against any defects in material and workmanship for a period of 6 months from the date of purchase by the end user/consumer. The conditions of the warranty are as follows:
2. The warranty is only valid upon presentation of the original receipt (from dealer/retailer) by the original purchaser with the product to be repaired or replaced.
3. The warranty is void if the serial number, date of purchase and label has been removed.
4. The warranty does not cover damage or product failure resulting from normal wear and tear, physical abuse, improper installation, misuse, modification or repairs by unauthorized third parties.
5. We do not assume responsibility for any loss or damage incurred during shipment or as a result of a force majeure.
6. We are not liable for any incidental or consequential damages arising from the use or misuse of this product.
7. All warranty claims are limited to repair or replacement of the defective product and at the sole discretion of us.
8. If we repair or replace the product, the product will be covered for the remaining time of the original warranty period. Repair or replacement may involve the use of reconditioned units which are equivalent in function. Replaced part or product becomes our property.
9. Consumable components such as batteries are not covered by the warranty.

The switch cables coming with the unit for testing ONLY, no commercial value, all rights reserved for the original designed company.

Applied Standard: GB/T 18287-2000

Some experts believe the incorrect or prolonged use of almost any product could cause serious injury or death. For information that may reduce your risk of serious injury or death consult the points below and additionally, the information available at www.datastreamserver.com/safety

- Consult all documentation, packaging and product labelling before use. Note that some products feature online documentation which should be printed and kept with the product.
- Check product for loose / broken / damaged / missing parts, wear or leaks (if applicable) before each use. Never use a product with loose / broken / damaged / missing parts, wear or leaks (if applicable).
- Products must be inspected and serviced (if applicable) by a qualified specialist every 6 months assuming average residential use by a person of average weight and strength, above average technical aptitude, on a property matching average metropolitan specification. Intended use outside these guidelines could indicate the product is not suitable for intended use or may require more regular inspection or servicing.
- Ensure all possible users of the product have completed an industry recognised training course before being given access to the product.

- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or your description of the application. Be sure to attain third party approval for your application from a qualified specialist before use regardless of prior assurances by the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (take an automobile, aircraft, computer or ball point pen for example) there is always a small chance of a technical issue that needs to be repaired or may require replacement of the product or a part. If the possibility of such failure and the associated time it takes to rectify could in any situation inconvenience the user, business or employee or could financially affect the user, business or employee then the product is not suitable for your requirements. This product is not for use where incorrect operation or a failure of any kind, including but not limited to a condition requiring product return, replacement, service by a technician or replacement of parts could cause a financial loss, loss of employee time or an inconvenience requiring compensation.
- If this item has been purchased in error considering the points above simply contact the retailer directly for details of their returns policies if required.
